They Will Come.

They will come—the milk white of And green leaves for the trees. We shall see the stately roses And feel the soft June breeze. The rivers again will mirror The willows nodding near, And the birds will fill the echoes With anthems to the year.

We have seen the skies look dreary,
And earth laid in her shroud— Did not the sunshife come again
And pay us for the cloud?
We had faith the fruit was sleeping
In nature's secret fold.

And show us green and gold?

O ye hearts bowed down in sorrov
This lesson is for you!
This the low work of the Master
To send you summer too.
Only trust Him as you trusted
That winter would depart;
This as surely is His purpose—
A June time for the heart.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning June 11.
Commends by Rev. 8. H. Dayle.

Typic.—Our pound lives for Christ.

No better introduction to our topic could possibly be made than the quotation of the reference Eccl. xil., 1, "Eccentible row thy Creator in the days of the youth, while the evil days come not, are the years draw night when thou shalt say, I have no pleasure in them."

These are yest familiar Seriptural words and are often repeated to the young and the property of the point of the prompt of flowers and laid them on unknown mounds. It was a sweet expression and for it there is a reward. Those living far away, and whose dear ones were buried here were not forgotten; the old man, the young woman, and the tiny babe who rested there, were alike remembered. The entire cemetery was a floral beauty, and many were the happy recollections to those thus remembering their dead.

Sixteen Minutes' Shoes

When one looks back a hundred years and thinks of the days of tedious traveling it took to make the journey from Boston to New York and then calls to mind the magnificent new compound locomotives which are capable of drawing a train of cars at the rate of between 75 and 100 miles per hour, he is struck by the wonderful progress which has been made mechanical solence during the current century. Yet as great as has been the change in our modes of locomotion it has been no greater than that which has occurred in other fields. For instance, it was but comparatively a few years ago when Henry Wileson, afterwards Vice President of the United States, was laboring at the shoe bench and then calls to mind the magnificent States, was laboring at the shoe bench spending hours, and probably a day or more, as did all his fellow workmen throughout the world, in making a single pair of shoes; now machines for doing this work have been so highly developed that last week a pair of shoes was actually made in Lynn, from beginning to end, including the sewing on of the buttons and the packing of the pair in a box, in the almost incredibly short time of less than 16 minutes. The compound locomotive and the 16 minutes' shoes are not excep-States, was laboring at the shoe benc

By observing hens when they go on the roost at night, it will be noticed that when the roost is high, it is with difficulty that some of them reach and secure positions. Before all the members of the flock get settled there will be several falls from the perch, due to the general scramble for favor-its places and when leaving the roost ite places, and when leaving the roo in the morning the heavy birds cor to the floor with more force than is beneficial, the result being leg difficulties and sometimes internal injuries Mirrorand Farmer.

Council Did a Good Work
When They Decaded to Extend Sycamore Street.

Other Streets Will be Opened and Mt. Sterling Will Have Sufficient Building Lots.

All the preliminary steps looking forward to the opening of Sycamore Street to Winn Street, will be taken at the Council meeting to-sight; this done, another extention should be attended to. We refer to the street so, long talked of, to be opened from Queen Street, between N. H. Trimble's and Col. Thomas Johnson's, crossing Mayaville Street, thence continuing westward, crossing the Sycamore extension, Bigstaff addition, and thence with the same bearings to, the city limits, at the East boundry of the Sycamore Pank property. Queen Street should also be extended to the Hinkston pike. The present necessity for the exchange of the streets and opening up of new building territory, in addition to the present demand for residence property, would be a saxin addition to the present demand for residence property, would be a saving to the city. Had this been attended to twenty years ago, even less time, property owners would have been glad to have given the streets; but as it now is, lands are increasing in value with each passing year, and if this work is not done now it will eventually cost the city a large amburdy fromer. There is opposition now, out it will be more stubborn; and the only thing required to open these only thing required to open these streets is nerve on the part of our Councilmen. It was wise in them to accept Mr. Bigstaff's proposition, and had preceeding Councils acted in the had preceeding Councils acted in the same way in regard to these and other state ets, this expenditure of money for right-a-way would have been obvia-ted and the city would have been built up along these lines with capital that has been expended in neighbor-

ing towns.

A handsome and popular widower, who does not live a hundred miles from Mt. Sterling, left Saturday in a enamer that created a suspleion in the minds of his friends. When asked where he was going, he replied, "to Crab Orchard." Monday an intimate bachalor friend left to join him, saying he too was going "to Crab Orchard." The movement of these two gentleman, who are not generally so secretive, aroused a deal of speculation accretive, aroused a deal of speculation among their friends. Report is rife that they will not go so far as "Crab Orchard," nor is their destination its famed Sanitarium; but that our widower friend will have a surprise in sore for his family and friends, and that he will return with a beauti-ful bride. His many good friends are awaiting developments, and are pre-pared to give him a rousing reception when he comes in.

The closing exercises of the K. T. S.
took place on Thursday and Friday.
In the prize drills for medals were
won by Frank Chenault, of this city,
and Pyron Martin, of Nashville.
The exercises concluded at the
Opera House on Friday evening with
a program prepared for the graduating class. Samuel Green delivered
an oration on "is Life a Battle?", and
W. H. Strossman followed with a
thesis entitled: "Some Recent Phases
of the Labor Froblem," whilst Ed
Gay came up with an oration "The
South—Shall is Glory Fade?" Mr.
Proctor Knott Malin, of Ashland, an
old graduate of Prof. Fowler's, delivcred the address to the class, and MajFowler's address in conferring the
diponas, concluded the exercises.
The boys acquitted themselves with
much credit and handled their subjets with an ease and a familiarity of
old stagiers. Mr. Malin's address was

Drak ADVOCATE:

Having a few days of leisure time after accomplishing my business at Wichita, I concluded I could not spend it more pleasantly at any place than in the Indian country. Hence I struck out for what is known as the Cherokes strip, and other parts of the Indian nation which are attracting at a secret more than collinery stantion. present more than ordinary attention Yet there are comparatively few peo ple excepting those residing on the border, or that have travelled through the territory, who know anything about this great and much talked of country. It is my purpose in this letter to en-lighten the numerous readers of your It is my purpose in this letter to enlighten the numerous readers of your excellent paper, to some extent, upon this subject and give them such information as has come under my observation. The principal topic of discussion at all times and places since I crossed the Maissispip has been, "When will the Cherokee Strip be opened for settlement?" and the answer to this question is no nearer a solution now than it was three mouth ago, and the date of opening the strip which contains more than 0,000,000 acres of some of the finest land on the American continent, is, as yet, uncertain. The territory has yet to be laid off into counties, county seats established therein, and there are 70 allotments of homesteads to be made to the original Indian settlers and confirmed by the Cherokee Council, and as there are over 200 claimants among the Indians for these claims, it complicates matters very much and the the Indians for these claims, it c plicates matters very much and President cannot issue his proclamation until the conflicting interests of these claimants are adjudicated and

tables. There has been no wann or ain at any time during the season.

The department seems to be rushing matters as fasts a possible, and the Secretary of the Interior thinks the opening of Oklahoma Territory, that is, each man to select his own claim, which means that the one having the fastest horse will get the best claim, many of which will be worth from \$5,000 to 88,000 when the tile is perfected. There are now from 7,000 to \$0,000 people on the border awaiting the opening of this great country many of them living in wagons, some in tents and others in holes dug in the ground. Many of them are now at ready training their horses for the great race.

If the Cherokee nation should fail to make a satisfactory adjustment in the 70 allorments to those entitled to receive them by September 3, in the event, there will have to be additional legislation by Congress, which will post-pick the opening of the strip in def, failtely.

Oklahoma Territory as organized by Congress includes all the Indian Territory except the five evilled a nation (Cherokees, Seminoles, Creeks, Chocaws and Chickasaws), and a few the second of the control of the control of the Second of the Second

decálidsy.

Oklahoma Territory as organized by Oklahoma Territory as organized by Oklahoma Territory as organized by Oklahoma Territory except the five civilized nations (Cherokees, Seminolos, Creeks, Chotaws and Chickasaws), and a few small tribes in the Northeastern part of the Territory 230,000,000 extended to the Territory 230,000,000 extended to the Territory 230,000,000 extended to the American Union, and Interview of the Wildows and Orpan's Home, of the Pawnees, Tankawas, Kickapoos, Kiowas, Comanches and Wichitas, and the Commissioners are now treating with the Poncas, Otoes, Missouris, and the Commissioners are now treating with the Poncas, Otoes, Missouris, Kiowas, Comanches and Wichitas, Kawa and Osages, and their lands are bound to follow in the near future, When this is accomplished Commissioners are now treating with the Poncas, Otoes, Missouris, Kawa and Osages, and their lands are bound to follow in the near future, When this is accomplished Commissioners are now treating with the Poncas Otoes, Missouris, Gave the chart of the meeting. It depends the transfer of the meeting is the last night of the meeting. It was the unanimous verdict of the terrations will be sent to treat with the fine not very far distant, when only Oklahoma, but the whole of the Indian Territory, will become settled and form one of the granded States in the American Union, and larger than any of the States, except Pexass or California.

The soil is generally fertile and in the first of the contract of the meeting of the Welling of the Navires of the table is the American Union, and larger than any of the States, except Pexass or California.

the American Union, and larger than any of the States, except Texas or California.

The soil is generally fertile and in its production is not surpassed by Kentucky in anything except hemptobaceo and bluegrass. It has a wonderful climate. The air is pure and dry, the summers long, the winters short and very mild, and stock needs every little, if any, shelter.

The Cherokees are said to be the wealthiest people upon the earth, and live under a form of government siniar in many respects to that of the States. They have a penilentiary, and anything for the insane, an orphan's home, a male and female seminary, costing \$200,000, from which many of the weave the criminal laws more than the contract of the contract

gallows.

The Choctaw government is similar to that of the Cherokees, except those convicted of murder are shot by the Sheriff of the county where the orime was committed. For all other crimes are committed, as the county of t was committee. For an other of the the criminal is whipped from 10 to 100 lashes on the bare back, at the whipping post, according the magnitude of the crime.

The Chickasaws also use the whipping post, but murderers are hange the same as in the Cherokee nation

The Choctaws and Chickasaws bo have educational institutions, equal to the Cherokees. During the three magnificent college buildings in different parts of the nation. The Seminoles have recently erected an

orphan school at a cost of \$80,000. In the Creek nation there are many institutions of learning that would be an honor to any of the States, some of which were established by missionaries many years ago, and are under the control of the Bapitas and Presbyterians, and in nearly every town and seighborhood in the Territory good schools can be found. About one-eighth of the western part of the Cherokee strip will be sold to actual settlers at \$2.50 per acre, one third, including the, middle portion, at \$1.50 per acre, and the balance at \$1.00 per acre, with interest at 4 per cent until paid. All kinds of fruits grow as well here as in Southern California, and the Territory is the stock raiser's paradise.

Oklahoma has better crops of every description than I have seen since I left home. The farmers are in the midst of wheat haveet and corn is waist high, and plenty of the finest ritit and a bountiful supply of vogetables. There has been no want of rain at any time during the season.
